# NEXT LEVEL OFF-ROAD SKILLS & KNOWLEDGE

Join the Moto Trekkin technical ride team for a weekend of superior off-road skill development and knowledge-building tuition. The Moto Trekkin Masterclass Development Program (MDP) is one of Australia's most comprehensive, multi-phase, off-road adventure rider development programs. It is designed to give you all the skills, knowledge and confidence you need to enjoy the trails on larger dual sport adventure motorcycles.

# OVERVIEW

Off-road adventure motorcycling requires a serious motorcycle and gear investment. Unfortunately, many motorcycle owners fail to invest in their off-road skills and ongoing development. Larger adventure motorcycles are often heavy and produce significant momentum and other forces that road and dirt bike riders are not familiar with. This frequently leads to personal injury and/or considerable motorcycle damage in off-road conditions.

**Don't be a rider with all the gear and no idea.**

All participants of the Moto Trekin Masterclass Development Program (MDP) learn superior off-road handling skills and specifically targeted techniques to manage larger adventure motorcycles across varying terrain. You need the gear, "yes," but the skill, knowledge, and agility will help you confidently enjoy the trails.

[\*\*CLICK HERE TO REGISTER\*\*](#)

## Who should invest in the program?

The Moto Trekin MDP is not a beginner motorcycle course. We assume you're already a competent rider with a complete and valid motorcycle licence with previous on-road or off-road experience. This program is open to all larger adventure dual sport motorcycle owners who want to take their off-road ability and confidence to the next level.

## How the Masterclass Adventure Rider Development Program works

Phase one of the MDP is purchased online via our website at the time of registration. Phase II & III of the MDP are by invitation only and cannot be purchased via our website. Enrolled participants who self-assess as not yet confident or are identified as not yet competent to progress to the next phase of the program are welcome to re-attend phase I or II as many times as desired, without cost. ^

## The power of "one on one" coaching

One instructor per ten participants provides you the opportunity to receive "one on one" coaching and technical feedback to maximise your development potential during the course.

[\*\*CLICK HERE TO REGISTER\*\*](#)

# OUR PURPOSE

## Knowledge is power

The actual value of the MDP over our competitors is that our program takes a holistic approach to adventure riding, covering all aspects of the sport. From developing technical off-road riding competencies to mechanical, medical, health, communications, safety, navigation, emergency procedures, and the right gear, everything is covered over three phases, so you gain the skills and knowledge of a pro rider.

## Premium quality training - delivered by experts

MDP participants benefit from a highly refined curriculum delivered by approved and certified Moto Trekin ride instructors within purpose built training facilities.

## Accelerate skill development

Small groups mean you will never feel pressured or embarrassed, which often happens in larger groups. The “one-on-one” feedback and supportive environment will see your skills and confidence develop in the shortest possible time.

## Recognition

Upon completing the entire program, each participant is recognised by receiving an exclusive Master Class T-shirt, cap, jacket pin, certificate, and personally named Masterclass trophy. Your name is also displayed on the Masterclass Legends website page within the Moto Trekin website.

# COURSE CONTENT

## PHASE I - MASTERCLASS DEVELOPMENT PROGRAM LEARNING OUTCOME

- Motorcycle set up for body type, weight & height
- Daily theory and practical lessons
- Best adventure gear overview
- Emergency and safety equipment
- Emergency comms in remote areas
- ABS + traction control systems
- Master the 3D's of adventure riding
- Tyre advice - tyre types and best choice
- Adventure rider navigation
- Off-road handling techniques
- Off-road cornering
- Standing v sitting
- Head position, eyes and vision
- Body position/weight and balance
- Clutch, brake, engine control
- Emergency braking
- Obstacle avoidance
- Precision hill climb
- Hill recovery technique
- Controlled hill descents
- Introduction to water crossings
- Loading, securing & towing

**“Each day contains a mini adventure ride so you can apply your new skills in the real world.”**

Your development includes daily theory and practical riding components for increased learning potential.

**YOU WILL LEARN PRECISE NAVIGATION TECHNIQUES TO USE IN REMOTE REGIONS SO YOU NEVER BECOME LOST OR RIDE INTO AREAS THAT ARE NOT SUITABLE FOR LARGER ADVENTURE MOTORCYCLES**

# OUR TRAINING CENTER

All courses are conducted at our dedicated training centre close to Thornton, NSW. QLD and VIC participants are welcome to join us. Please consider staying in the recommended hotel below as it is conveniently located near our training centre and MT HQ.

# WHAT TO BRING:

## Approved standards helmet

We stock a range of Held and Five gloves at discounted prices. Email us for details.

## Quality protective off-road boots

We stock all quality adventure rider boots at discounted prices. Email us for details.

## Adventure jacket & pants

We stock the latest range of major brand jackets including Held, Revit, Alpine Star, Oxford to name a few. Contact us if you need a new jacket.

## Hydration backpack

We stock Kriega hydration packs for superior quality and long term durability.

## Powered phone mount

We stock all Quad Lock & RAM Mount components you will need. Call to order.

## Off Road tyres - Knobby pattern

Pre order your tyres during registration and we'll have them ready when you arrive.

## IMPORTANT

This is not a rider training course to obtain a NSW motorcycle licence. This course covers tuition only and does not include accommodation, fuel, motorcycle hire, motorcycle equipment or personal insurance of any kind.

## INQUIRIES

**02 4072 4511**

BUSINESS HOURS

Or email us at

[adventure@mototrekkin.com.au](mailto:adventure@mototrekkin.com.au)

## EQUIPMENT

Ensure you have the correct riding equipment, including an Australian-standards approved helmet, offroad or adventure boots, pants, jacket, and gloves. Our store will be open for any last-minute purchases.

**[CLICK HERE TO REGISTER](#)**

# MOTORCYCLE TYRE SUPPORT

## COURSE TYRES

To obtain the best learning outcome from the course, you will need quality off-road tyres. We supply and fit off-road tyres to ensure you have the grip you need. All tyres are fitted on the Friday of the course. Call us if you need tyre advice or to place an order. Tyre bookings are essential.

After each program phase, we can remove your knobby tyres and refit your arrival tyres to your motorcycle for the return home. We'll even store your knobby tyres for you until you're ready to attend the next phase of the program, or we'll ship them home for you. ^

**If you have questions about tyres, we're here to help with the right advice.** Phone 02 4072 4511 during business hours Monday through Friday for tyre support.

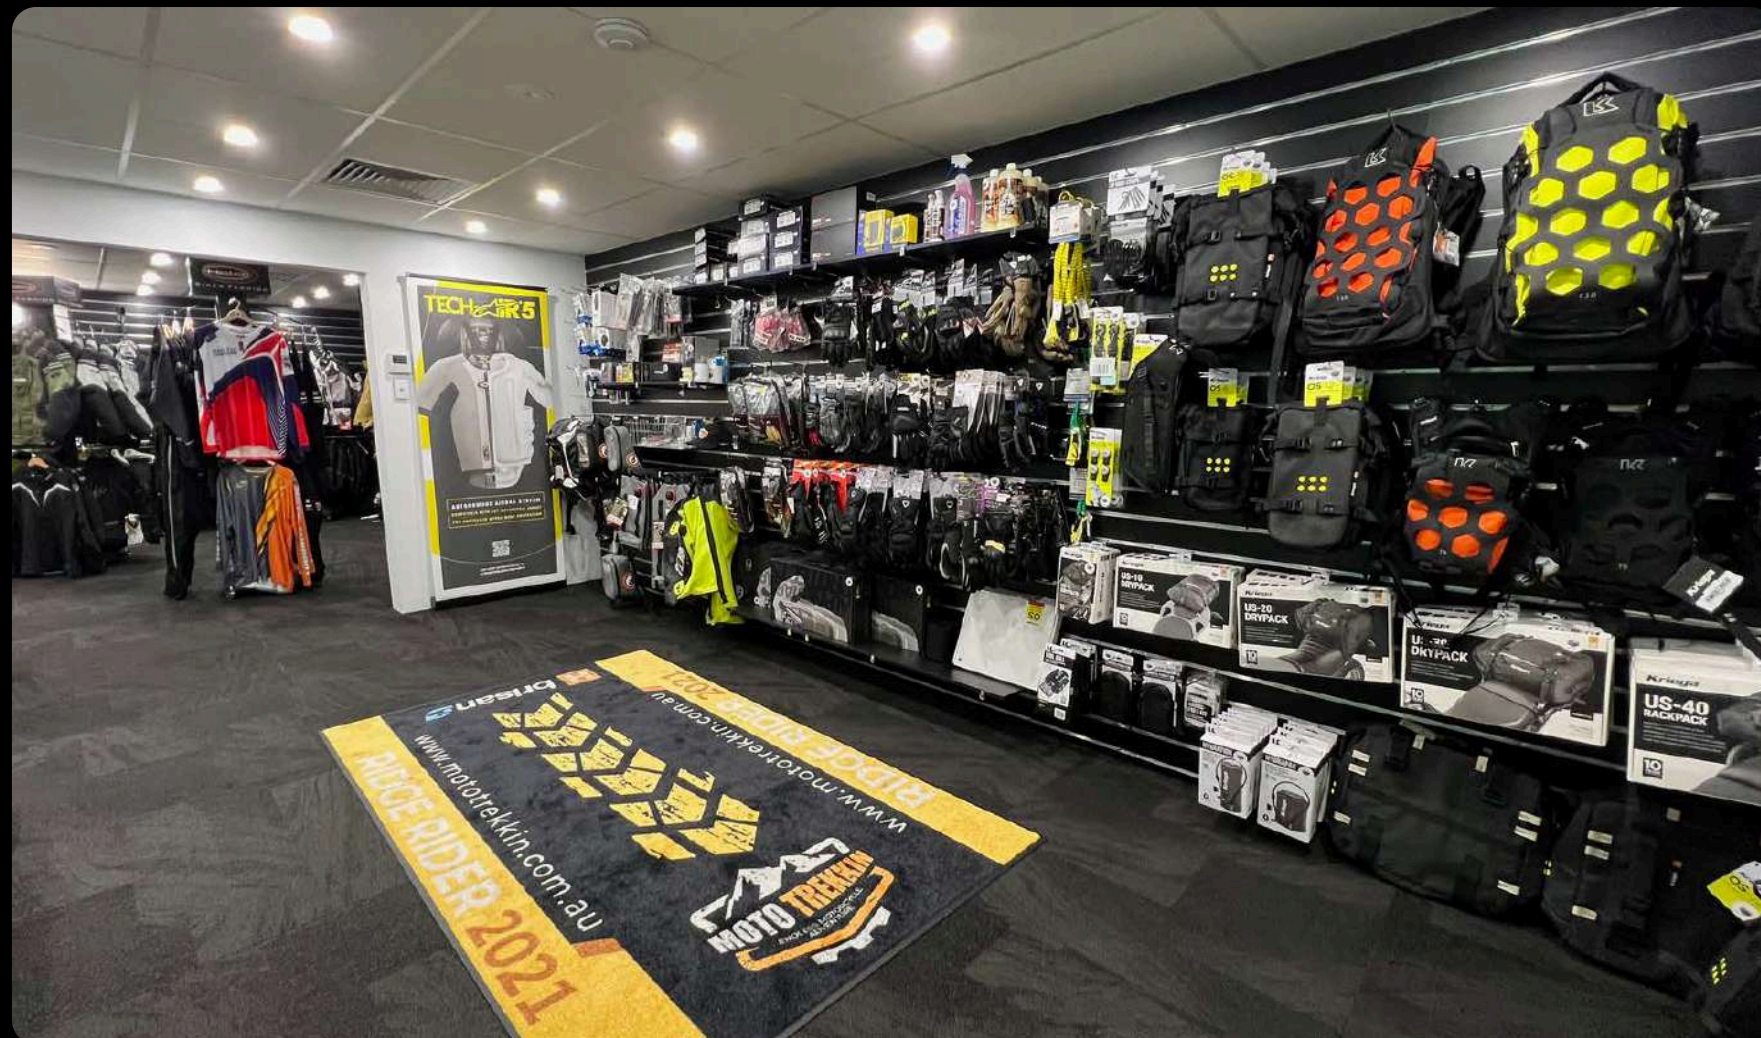

### **Fitting charges**

Loose rims \$25 per wheel #

Remove & refit \$50 per wheel #

*We supply and fit all major brands ^#*

*We only fit tyres supplied & purchased through Moto Trekkin*

# THE MASTERCLASS CHAMPS

# WHAT COURSE PARTICIPANTS SAY

**Tracey Muncaster** ★★★★★

I can't say enough about this course, as a 55 yr old female that only decided to start adventure riding in April I was a bit hesitant as everything about the dirt scared me. I asked Jay about his Adventure riding course and thought I can't do it and I didn't want to be the only female in a group of men as they would all be able to ride. Jay just said you can do it so off I went to the 2 day course and didn't I just love it. I could do all the different activities which really surprised me as I was learning the correct methods. I learned so much and everything I was scared of was explained and shown in simple form to understand easily. There was no pressure and I felt at ease both days. To overcome my fears and now love the dirt is awesome. I can't thank Jay and Emily enough. If you are thinking about doing adventure riding go do this course it's the best way to learn correctly first time. Definitely 5★

**David Porter** ★★★★★

I have been on 5 major motorcycle trips & 2 training courses with Moto Trekkin over the last 4 years. They are a very organised & professional company & highly recommended. They really make you feel like part of the Team.

**Paul Malcom** ★★★★★

A very professional team that organises and ran the event. Probably the greatest number of support staff of any of the tour companies. Very professional and made everything a breeze for us! My second tour and I'll be back.

RR IV was a great experience and thoroughly enjoyed it with my friends.

**Steve Burge** ★★★★★

Just completed Phase 2 of the Masterclass Development Program for adventure motorcycle riding, This is a first class business delivering a professional quality instruction for adventure riders. For assurance the business offers customers no cost repeat attendance at the course as many times as you want - how is that for business integrity! The courses are challenging but achievable with practical application of lessons front and centre. I left feeling much more confident in my ability as an intermediate rider. Jay and the team are very supportive with a strong positive customer focus.

**Layla** ★★★★★

I completed Moto Trekkin's Phase I Masterclass over the weekend and could feel the improvement in my riding skills immediately. I'm new to ADV riding so having some of the basic skills addressed was very helpful. By the end of the weekend I was doing things I didn't think I was going to be able to do. We had a bit of rain but that didn't stop Jay taking us out to an alternative training spot where we could still get most of the course done. And the time in the workshop during the heaviest rain was spent going over theory, tips, etc so the whole weekend was very valuable. Jay also very generously invited all of us back at any time to complete the course again at no cost if we wish. There were only 14 of us in the group with different skill levels, and we all got individual advice. Everyone was super friendly and there was a great atmosphere over the whole weekend.

**Jeremy Deasey** ★★★★★

Great course to teach the skills required when riding off road. The team really focused on individual skill ability and made everyone feel safe regardless of the skill level regardless of much we bugged things up or needed to practice to get the skills right. Great weekend with like minded people!!!

**Jamie Bakewell** ★★★★★

Attended the Masterclass Development Level 1 just last weekend. As a very inexperienced rider I found the course to be absolutely fantastic. The instruction was professional yet also fun, the farm setting was perfect with lots of different terrain for the various exercises. It was challenging at times and I felt like I improved out of sight technically and learnt so much about things like protection, balance, vision. Went with a bunch of mates, had a ball, and also met plenty of other like minded people. Everyone super friendly and supportive. I'm on a learning journey and will definitely will sign up to higher levels to keep improving.

**Jedd S** ★★★★★

What did I get out of the Mototrekkin Masterclass training? Last year, I dropped my bike 6 times on the Ridge Rider 3 week long ride due to the technical outback terrain. This year, after completing the Phase 1 training course, I did not drop my bike once. I can only put this down to the confidence and skills that I got from Jaye and the team at Mototrekkin. The training was invaluable to me.

**Howard Elliott** ★★★★★

Extremely well organised. Great bunch of people. The route was well balanced for intermediate and advanced riders. The Moto Trekkin team were always helpful and friendly.

**Gavin Fleig** ★★★★★

I have just completed the first of three rider development courses.

Jay and his team of professionals have delivered an excellent training package. Every aspect of the course exceeded my expectations, instructors, training grounds, course content, catering.

I have zero reservations in recommending this course to any adventure bike rider.

**Chris Barnett** ★★★★★

Jay and his team at Moto Trekkin are sensational. I did their Phase 1 Masterclass Adventure Riding Course, which is fantastic. They changed my tyres on my bike and have a wide range of quality bike gear and parts. They provide personalised service, training and tours. This is a company going places. Thank you Moto Trekkin.

**Greg Stewart** ★★★★★

The Moto Trekkin Skills Master class level one provided me with skills that will enhance my Adventure riding, with more fun, more safety.

I recommend this course for riders from beginners to experienced riders.

I've been riding for many years and gained more skills and confidence.

**Simon Richards** ★★★★★

I just completed Moto Trekkin's "Masterclass Off-Road Development Phase 1" course yesterday. I thought I was a reasonable motorcycle adventure rider having clocked up 10s of thousands of kilometres until Jay and Max began demonstrating and educating our group over 2 days. My MADCAT Motorcycle Club mates and I observed, practiced and became 'competent' at real skills, techniques and knowledge that will save lives and make our rides more enjoyable. Jay's (& Max) verbal explanations and actual demonstrations were simple to observe and comprehend and with practice and guidance we all achieved every challenge set and improved our proficiency and safety. As an adventure bike rider I am far better prepared and confident to handle the weight of the bigger bikes and the obstacles we will encounter. Thanks guys for the terrific and challenging weekend training course.

**Rich Kaminski** ★★★★★

I completed the Phase I training with Moto Trekkin on my BMW F800GS, I thought this may be below the level I required. I was certainly wrong, It was definitely the level I required as a new participant at Adventure riding. Having said this, When I upgraded to the BMW 1250 GSA, I was able to attend the Level I again, free of charge. This set me up to attend the Phase II training on my 1250, which I absolutely enjoyed.

**Michael Sutcliffe** ★★★★★

Excellent course with great instructors. Well worth the time and money. Serious foundation lessons that made an immediate difference to my riding ability. Can't wait for phase 2.

**Vishal Chandani** ★★★★★

Have completed the 2 day phase 1 course in Helidon Qld. WAS EXCELLENT. Riding in, didn't feel comfortable over 20kph on dirt, flew out of there having to watch speed limits. Confident now with slow movement, emergency braking on loose surfaces and just being able to ride my 250kg+ adventure bike in general. Would highly recommend. Have signed up for Ridge Rider 3 and will try and get down to NSW for phase 2 one day.

**Bill Ritchie** ★★★★★

These guys run a great course. They were organised with good content and they knew how to deliver it. Highly recommend.

**Iain McLeod** ★★★★★

Awesome training course, very good instruction, great facilities

**James Cleere** ★★★★★

I had an excellent weekend with Moto Trekkin. The Masterclass off-road training program is awesome. Looking forward to the next phase.

**Andrew Perkins** ★★★★★

The Mototrekkin Adventure Riding Master Class at Toowoomba was an awesome way to build skills and confidence on the MC, to ride safely and get more enjoyment out of something that I love doing.

**Graham Boyd** ★★★★★

Really well organised and informative, practical and theory talks are great, would recommend this course for anyone wanting to do some Adventure riding.

**Sharpy Sharpy** ★★★★★

Excellent course, wonderful people. Well worth the time and effort

**Jason Mcghee** ★★★★★

Completed level 1 master class. Jay and Michael great teachers and very informative highly recommended it

**Rob Reeve** ★★★★★

Fantastic Course very professional from start to finish thank you Jay and Team Fantastic Job

**Rodney Vio** ★★★★★

If you are serious about adventure motorbike riding then Moto Trekkins adventure riding master class/s are a must. The knowledge and riding skills gained are practical and invaluable providing confidence to ride even the most difficult terrain. So pleased that I did these master classes before setting out on my adventure riding treks.

**John Kerr** ★★★★★

Had a great time brushing up on old & developing new skills. I would recommend this course to anyone who wants to ride better & safer 👍
