# SAT PHONE HIRE

# INTRODUCTION

Welcome to the information kit about Sat Phone hire in Australia. This kit is designed to provide you with comprehensive details about Sat Phone rental services, benefits, coverage, and prices in Australia. When traveling to remote areas or places with poor signal strength, Sat Phones can be essential for reliable communication. Read on to learn more about Sat Phone hire in Australia.

## WHAT ARE SAT PHONES?

Satellite phones, commonly known as Sat Phones, are mobile communication devices that operate through signals transmitted from satellites. Unlike traditional mobile phones, which rely on cellular networks, Sat Phones connect directly to satellites, making them a reliable and efficient solution for communication in remote areas.

# BENEFITS OF SAT PHONE HIRE

Satellite phones, commonly known as Sat Phones, are mobile communication devices that operate through signals transmitted from satellites. Unlike traditional mobile phones, which rely on cellular networks, Sat Phones connect directly to satellites, making them a reliable and efficient solution for communication in remote areas.

## COMMUNICATION IN REMOTE AREAS:

Sat Phones provide connectivity even in areas with weak or no cellular network coverage. Whether you're exploring the Outback, hiking in the wilderness or sailing the coastal waters, Sat Phones offer a lifeline of communication.

## EMERGENCY SITUATIONS:

Sat Phones can be crucial during emergencies, allowing you to call for help when conventional means of communication are unavailable. This can be particularly important in remote or disaster-stricken areas.

## GLOBAL COVERAGE:

Sat Phones offer global coverage, ensuring you can stay connected across Australia and even in the most remote parts of the world. This makes them ideal for traveling internationally as well.

# IRIDIUM 9575 SAT PHONE

The Iridium 9575 Extreme Satellite Phone comes of age. Iridium has designed the smallest Iridium phone ever. Now proven over the last 60 months in Australia and worldwide we are now proud to give the Iridium 9575 Extreme satellite phone the official thumbs up.

With its Superior looks and functionality, rugged appearance in conjunction with its high-gain antenna makes this a serious contender in the satellite communications arena.

Iridium Extreme is the first satellite phone to offer the fully integrated services of customisable GPS, online tracking, and programmable emergency notification to personalised contacts. More than a phone, it is a real mobile, reliable tracking device with truly global coverage.

## The Iridium 9575 Extreme Satellite Phone with Integrated SOS Features

Iridium's most compact handset to date, Iridium 9575 Satphone Extreme is enhanced with more features than ever.

### Satellite Phone Applications

This portable satellite phone is perfect for your next cruise, business trip, or adventure anywhere in Australia. Sat phones are a better option when you need constant, reliable connectivity and contact. As long as your antenna has a clear line of sight to the sky, you will be good to go wherever you roam.

# SHIPPING OR COLLECTION

You are welcome to collect your sat phone from Moto Trekkin HQ based in Thornton NSW 2322 free of charge or we can ship it to you for an additional courier fee. The courier fee depends on your location. If you hire a sat phone over the phone or by using our website you will be required to provide 100 points of identification and pay the security bond to complete your rental agreement.

# PAYMENT

Your payment for the hire period plus any additional charges such as mounts, must be paid in advance of you collecting your Sat Phone or the sat phone being dispatched to you.

# SECURITY BOND

A security bond hold will be placed on your credit for the amount of \$700 to cover the period of the hire. Once your hire phone is returned to us the hold on your credit card will be released less any call charges.
